UDIT YADAV *Software Engineer*

udityadav133@gmail.com 91+ 9560664744 https://www.linkedin.com/in/udit-yadav065/

Education

B.Tech – Computer Science and Engineering
Guru Tegh Bahadur institute of Technology
08/2020 – 08/2023 | Delhi, India
CGPA : 9.1/10

Diploma – Computer Engineering
Guru Nanak Dev Institute of Technology
08/2017 – 08/2020 | Delhi, India
CGPA : 7.3/10

Skills

Frontend: — React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Material UI, Redux, Responsive UI Design

Backend: — Node.js, Express.js, NestJS, Microservices Architecture, API Development

Database: — MongoDB, SQL, Redis, Prisma ORM

Projects

World Explorer
https://worldexplorer065.netlify.app/
03/2023

- Developed "**World Explorer**" using **React**, **Tailwind CSS**, **MUI components**, **Redux Toolkit**, and the **REST Countries API**.
- Built **search, filter (by continent)**, and **pagination** functionalities, enabling users to efficiently explore and locate countries.
- Implemented a **dark mode feature** to enhance user experience and accessibility.

Q-TV
https://stream065.netlify.app/
01/2023

- Developed a **responsive Netflix clone** using **React**, **CSS Grid**, and **Material UI Skeleton components**.
- Integrated the **TMDb API** to dynamically fetch and display movie data, and implemented a **YouTube popup feature** for trailers and promotional videos.
- Ensured **full responsiveness and cross-device compatibility** across desktops, tablets, and mobile phones.

Professional Experience

Jr. Software Engineer
Gurukulastic Pvt. Ltd. , Noida Sector - 62
01/2025 – Present | Noida

- Contributed to the development of a **payment gateway aggregation** platform enabling **seamless integration** and **intelligent routing** of transactions across **multiple payment providers**.
- Designed and implemented a **Chargeback Module** to **automate refund and dispute workflows**, improving **transparency** and **operational efficiency**.
- Built the **Merchant Alias System** to mask merchant identities across the portal, enhancing **data privacy** and preventing potential **merchant data leakage**.
- Developed **real-time monitoring dashboards** and **Telegram alert bots** to track **merchant and provider success rates**, detect performance issues, and **trigger proactive notifications** — improving **uptime** and **reducing manual monitoring**.

Software Developer
Bonanza Interactive LLP , Noida Sector - 68
11/2023 – 12/2024 | Noida

- Developed **responsive user interfaces** using **React.js**, mastering components, state management, and routing to deliver smooth user experiences.
- Collaborated with **designers and backend developers** to enhance game functionalities and integrate features that boosted **user engagement**.
- **Optimized performance** and implemented **GSAP animations**, improving site responsiveness and visual interactivity by up to **15%**.

Front End Developer - Intern
Sveltetech Technology Pvt. Ltd., Gurgoan
05/2023 – 10/2023 | Gurgoan

- Collaborated with the development team to **design, build, and maintain user interfaces** for client projects using **React.js**, **Tailwind CSS**, **React Bootstrap**, and **Material UI**.
- Utilized **Git** for version control and applied **agile development methodologies**, ensuring efficient teamwork and smooth project delivery.
- Gained hands-on experience in **front-end best practices**, delivering **high-quality, scalable, and responsive web applications**.
